

Revolutionary, innovative and cost saving

YESTERDAY

TODAY

Date installed 1997
Picture taken in September 04

+ aesthetic

- 50 mm thick, similar to urban furniture
- No apparent collars or rails
- Perfect aspect on both sides
- No sharp or deformed edges

+ resistant

- Resists to chemical and salt water aggression
- Will not be deformed
- Will not retain water and mildew
- Certified since 1997

+ economical

- Less expensive than traditional road signs - the 80X40 brackets are included in the price
- Possibility of making of double faces instead of 2 panels, 2 supports or 2 massive cement blocks

front side

back side

+ easy to install

- No brackets, bolts and washers
- The mounting of the sign on its support is carried out easily by tightening a single stainless screw.
- The mounting system is totally invisible and entirely integrated with an inseparable main body

- Official signs
- Urban signs
- Parking, company... signs
- Publicity signs
- Information signs
- Private signs
